## CHRISTMAS LIGHTING CATALOGUE

vito®
all about lighting

With 32 years of experience we are confident and able to offer you the best quality and reliable products.

Create the right Christmas atmosphere! We offer a wide variety of LED chains that excel in low power consumption and long life for lighting up your Christmas tree.You can choose from outdoor (IP44) or battery-powered chains that are ideal for decorating areas without access to a power outlet.

For a pleasant and warm festive atmosphere at home or, a magical show of decorations in the garden, you can enjoy a Christmas offer of various products. It is advisable to consider whether you plan to place the decorations indoors or outdoors. Decorations for outdoor use can also be used indoors and a large number of them can be used all year round.

The most popular Christmas light is the chain, although there are many choices among icicles, curtains, nets or clusters. Up to 1200 LED lights can be powered from a single power supply, with 5 linkable chains by 240leds each.

We hope to find the suitable products for your needs.
