vito[®]
all about lighting

VITO has a widespread international network of highly-valued business partners in over 40 countries. Vito is presented in West and East Europe, Middle East, Middle Asia and Africa.

OUR AIM

Our aim is the understanding of our partners' needs and stays at the centre of our business cooperation. We care for 2-way business-to business cooperation. Together with our customers, we're redefining the future of lighting. We're creating the lighting company of the future.

OUR VALUES

VITO with all workers and customers are a big family with common values holding us together and aware of the most important responsibility of future hopes and beliefs. We know that to live common values that hold us together is the most important condition.

OUR MISSION

Our mission is to be focused to ensure high reliability and cost effective solutions to all consumers. We keep improving our components and products, productivity, quality control, added value, and cost reduction in order to offer market-aligned solutions worldwide.

Our new catalog 2024 offers new solutions based on customers demands & our creativity.

More specific:

New series of architectural lighting.

New series of decorative lighting fixtures.

New series of indoor and outdoor led strips.

New aluminium profiles & controllers for led strips.

New series of solar lighting fixtures.

New luminaires for urban and street lighting.

New series of high luminosity bulbs and much more...

Now you have only to open the catalog and explore the entire range of our products.

TRACK LIGHTS

**MAGNETIC & SINGLE PHASE
TRACK LIGHTING SYSTEMS**

GENERAL INFORMATION

MAGNA S1 is a rotatable led spot track lights family, equipped with CREE LED sources.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products. It can be operate on the magnetic 2 lines track rails of S20, Recessed, Surface & Suspended systems.

They are equipped with microprismatic diffuser with 24° and UGR<15.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand black.

GENERAL INFORMATION

MAGNA HS1 is a magnetic rotatable led spot track lights family, equipped with SANAN LED sources.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products. It can be operate on the magnetic 2 lines track rails of S20, Recessed, Surface & Suspended systems.

They are equipped with microprismatic diffuser with 24° and UGR<19.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand black.

2 YEARS WARRANTY	LED INSIDE	MAGNETIC	48V	IP20	UGR <19	CRI Ra>80	25000h	x25000	Non Dimm	20÷40°C

MAGNA S20 is a family of magnetic rails, operating on 48V, in which you can place all the MAGNA LED lighting fixtures. Due to their magnetic technology, their handle is a very easy process, as well as it is possible to move them even when they are on, achieving an enormous flexibility in your creation. They are ready for surface or pendant installation. Available in 1m & 2m length.

MAGNA S20 is a family of magnetic rails, operating on 48V, in which you can place all the MAGNA LED lighting fixtures. Due to their magnetic technology, their handle is a very easy process, as well as it is possible to move them even when they are on, achieving an enormous flexibility in your creation. They are ready for recessed, trimless, installation. Available in 1m & 2m length.

MAGNA R20

9910790 Recessed Horizontal Corner

Horizontal corner connector for recessed trimless track rails. In the package including 4 pcs of steel plates for the accurate installation. 80x80mm.

MAGNA R30

9910800 Recessed Vertical Corner

Vertical corner connector for recessed trimless track rails. In the package including 4 pcs of steel plates for the accurate installation. 80x80mm.

MAGNA SCI

9910780 Surface Horizontal Corner

Horizontal corner connector for surface mounted track rails. In the package including 2 pcs of steel plates for the accurate installation. 80x80mm.

MAGNA SCV

9910850 Surface Vertical Corner

Vertical corner connector for surface mounted track rails. In the package including 2 pcs of steel plates for the accurate installation. 80x80mm.

MAGNA RT

9910830 installation accessories

Set of 2 metal sheets for connection between 2 recessed track rails.

MAGNA RT

9910840 installation accessories

Metal sheet for connection between 2 surface track rails.

MAGNA PRO

9910811 Power supply 100W

Internal power supply for both surface or suspended rails. High quality with 3 years warranty.

MAGNA PRO

9910821 Power supply 200W

Internal power supply for both surface or suspended rails. High quality with 3 years warranty.

MAGNA PS

9910810 Power supply 100W

Internal power supply for both surface or suspended rails.

MAGNA PS

9910820 Power supply 200W

Internal power supply for both surface or suspended rails.

MAGNA CI

9910790 Angular power transmitter

Internal power transmitter with flexible angle for both surface or suspended rails. If you have installed more than one rails in an angle you need this accessory in order to transfer the power from one rail to another.

MAGNA SI

9910800 Straight power transmitter

Internal power transmitter with straight angle for both surface or suspended rails. If you have installed more than one rails in an angle you need this accessory in order to transfer the power from one rail to another.

MAGNA PE

9910750 Hanging set of 2 pcs

2 twisted steel wires, with maximum length of 1.5m, with steel fittings for fixing on the ceiling for suspended rail.

MAGNA C

9910740 End caps

2 pcs of end caps for surface mounted track rails.

GENERAL INFORMATION

MONOLINO is a family of rotatable single phase led spot track lights equipped with SANAN LED sources.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products. Suitable for 1 circuit track rails 9902670, 9902680, 9902690, 9902700, Surface & Suspended systems.

They are equipped with microprismatic diffuser with 36° and UGR<19.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand black & sand white.

PT1

9902670	White rail 1m
9902690	White rail 2m
9902680	Black rail 1m
9902700	Black rail 2m

PT1 is a family of 1 circuit single phase track rails in lengths of 1m & 2m. They are made of aluminium and electrostatically painted in white & black. End caps and power supply included on the rail.

APT1

9902650	White color
9902660	Black color

APT 1, are open angle connectors which are used in order to create the desire arrangement of track rails. Are made of plastic and painted in white & black.

APT1 CC

9902570	White corner connector
9902580	Black corner connector

APT1 CC, are 90° angle connectors which are used in order to create the desire arrangement of track rails. Are made of plastic and painted in white & black.

APT1 SC

9902630	White straight connector
9902640	Black straight connector

APT1 SC, are straight connectors which are used in order to create a straight line of track rails. Are made of plastic and painted in white & black.

APT1 TC

9902590	White "T" connector
9902600	Black "T" connector

APT1 TC, are "T" shape connectors which are used in order to create the desire arrangement of track rails. Are made of plastic and painted in white & black.

APT1 QC

9902610	White cross connector
9902620	Black cross connector

APT1 QC, are quadruple 90° connectors which are used in order to create a straight line of track rails. Are made of plastic and painted in white & black.

GENERAL INFORMATION

PROFILED SL1 is a Professional line of Linear fixtures.

SAMSUNG LED sources applied in our standard version of Linear Light Group solutions.

OSRAM LED sources applied in our High Lumens version of Linear Light Group solutions, offer highest performance and long duration.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Linear standard versions are equipped with PHILIPS or TRIDONIC drivers.

Dimmable versions are equipped with TRI-DONIC 3 in 1 driver with option of 3 different dimmings (DALI / I-10V / PUSH BUTTON).

It can be installed on the surface of the ceiling or Suspended. The suspension set must be ordered separately, (HSL).

It can be installed on the wall. The mounting set must be ordered separately, (WML).

Polycarbonate difusser with High Permeability. There is option to put microprismatic difusser with 60° and UGR<15. It has to be ordered separately (MDL).

Housing of aluminum board electrostatically painted in sand white & sand black.

GENERAL INFORMATION

PROFILED SL1 is a Professional line of Linear fixtures.

SAMSUNG LED sources applied in our standard version of Linear Light Group solutions.

OSRAM LED sources applied in our High Lumens version of Linear Light Group solutions, offer highest performance and long duration.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products. Linear standard versions are equipped with PHILIPS or TRIDONIC drivers.

Dimmable versions are equipped with TRIDONIC 3 in 1 driver with option of 3 different dimmings (DALI / I-10V / PUSH BUTTON).

It can be installed on the surface of the ceiling or Suspended. The suspension set must be ordered separately, (HSL).

It can be installed on the wall. The mounting set must be ordered separately, (WML).

Polycarbonate difusser with High Permeability. There is option to put microprismatic difusser with 60° and UGR<15. It has to be ordered separately (MDL).

Housing of aluminum board electrostatically painted in sand white & sand black.

GENERAL INFORMATION

COMBO is a **2 in 1** panel led light fixture equipped with SAMSUNG LED sources in the backlight position.

It can be installed in-grid, on the surface of the ceiling without additional frame or suspended with the pendant set PANELFIX-P (suspension set has to be ordered separately).

Housing of aluminum board electrostatically painted with sandblasted finishing in mat white color.

Diffuser of opal polystyrene with anti-yellow treatment with 120° beam angle.

Standard driver is included in the fixture.

Dimming option, with PANELDIM, 3in1 dimming with TRIDONIC driver one4all (DALI-2 DT 6, DSI, switch DIM, corridor FUNCTION V2). Driver has to be ordered separately.

Emergency unit, EMUP 1, with 3 hours autonomy is available for COMBO 2 IN 1 and has to be ordered separately.

Sand black

FINESSE D 60

FINESSE D60 is a linear disc ceiling mounting lighting fixture, equipped with backlit technology of SANAN LED sources arrangement. Operates with rem. control & Mobile Application which can make scenarios, dimming, select the color temperature between 3000K, 4000K or 6000K, etc. It can be installed on the surface of the ceiling or suspended, suspension set included in the package. Housing of aluminum board electrostatically painted with sandblasted finishing in sand black.

2026310 - Black color

SUSPENSION SET included

GENERAL INFORMATION

PROFILED PC is a Professional line of fixtures. SAMSUNG LED sources applied in our standard version of Donut Ceiling Linear Light Group solutions.

OSRAM LED sources applied in our High Lumens version of Donut Ceiling Linear Light Group solutions, offer highest performance and long duration.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products. Standard version is equipped with PHILIPS or TRIDONIC drivers.

Dimmable versions are equipped with TRIDONIC 3 in 1 driver with option of 3 different dimmings (DALI / 1-10V / PUSH BUTTON). Intended for surface or Suspended installation. The suspension set which is including in the package consisted of 1 round rozete and 3 ropes with length of 1.5m each which are adjustable.

Housing of aluminum board electrostatically painted with sandblasted finishing in sand white & sand black.

Different body color is possible according to the project needs.

Polycarbonate difusser with High Permeability.

SURFACE LED CEILING LIGHTS

VENERA 18

VENERA 18 is a round ceiling mounting lighting fixture, equipped with backlit technology of SANAN LED sources.

Intended for surface installation.

IP20 protection class allows the use of the fixture only indoor. Also can be used in areas with low humidity. Made by PP.

Easy mounting way, just twist the fixture to its base which is installed on the ceiling separately.

GENERAL INFORMATION

DIANA D18 is a round ceiling mounting lighting fixture with built-in PIR sensor, equipped with backlit technology of SANAN LED sources.

PIR functions:

Light sensitivity: <3 LUX (adjustable).

Time delay: 10 sec - 5 min.

Detection angle: 360°.

Installation height: 1.8 - 2.5 m.

Made by ABS & PVC.

GENERAL INFORMATION

LIKYA is a round ceiling mounting lighting fixture with built-in PIR sensor, operating with 2xLED bulbs (not included), E27, A60 type.

PIR functions:

Light sensitivity: <3 LUX (adjustable).

Time delay: 10 sec - 5 min.

Detection angle: 360°.

Detection distance: 10m max.

Installation height: 1.8 - 2.5 m.

Made by steel body & glass.

GENERAL INFORMATION

LUGO 2 is a double adjustable surface ceiling spot lighting fixture operating with 2xLED bulbs (not included), PAR16 type, GU10 socket.

Is intended for interior use.

Base for ceiling mounting of aluminium.

Fixing on the base with all necessary accessories.

Housing of die-cast aluminum, electrostatically painted with sandblasted finishing in 2 colors, sand white & sand black.

2102340 - White body

2102330 - Black body

GENERAL INFORMATION

LUGO 3 is a triple adjustable surface ceiling spot lighting fixture operating with 3xLED bulbs (not included), PAR16 type, GU10 socket.

Is intended for interior use.

Base for ceiling mounting of aluminium.

Fixing on the base with all necessary accessories.

Housing of die-cast aluminum, electrostatically painted with sandblasted finishing in 2 colors, sand white & sand black.

LED STRIPS

**LED STRIPS, TRANSFORMERS,
CONTROLLERS & PROFILES**

GENERAL INFORMATION

STRIPILED is a family of double PCB Flexible LED strips (SMD 2835, 60 LED/m), available with monochromatic color temperature, warm white, neutral white or cool white & colorful, red, green, blue, non waterproof (IP20).

Total length of the roll is 5m.

Power supply cable at each side,

For better results and avoid voltage reduction is recommended to connect both edges of the strip to electricity.

Sectionable every 50mm or multiple of this size.

5530130	3.6W/m	330lm/m	3000K
5530135	3.6W/m	330lm/m	4000K

GENERAL INFORMATION

STRIPIED PLUS COB is an advanced double PCB Flexible LED strips (SMD 2835, 320 LED/m), available with monochromatic color temperature, warm white, neutral white or cool white, non waterproof (IP20).

Total length of the roll is 5m.

Power supply cable at each side,

Voltage loss after 5m is no more than 5%.

3M adhesive tape is used for better bonding results with surfaces.

Sectionable every 50mm or multiple of this size.

GENERAL INFORMATION

MAESTRO is a family of led strip controllers. MAESTRO 4 is a 3 channel touch controller with RF communication with the remote control. The remote control operates with high precision. Maximum distance 20m in open spaces. Is used it to control RGB LED strips by adjusting its brightness and color. The maximum load is 6A, 72W on 12V & 144W on 24V. Operating with batteries (are not including).

6210130 6A MAX 12-24V RF

MAESTRO 4 RGB

GENERAL INFORMATION

MAESTRO is a family of led strip controllers. MAESTRO 3 is a 3 channel controller with 20 preset keys & RF communication with the remote control. The remote control operates with high precision. Maximum distance 20m in open spaces. Is used it to control RGB LED strips by adjusting its brightness and color. The maximum load is 6A, 72W on 12V & 144W on 24V. Operating with batteries (are not including).

6210120 6A MAX 12-24V RF

MAESTRO 3 RGB

GENERAL INFORMATION

MAESTRO is a family of led strip controllers. MAESTRO 2 is a 4 channel controller with 40 preset keys & RF communication with the remote control. The remote control operates with high precision. Maximum distance 20m in open spaces. Is used it to control **RGBW** LED strips by adjusting its brightness and color. The maximum load is 6A, 72W on 12V & 144W on 24V. Operating with batteries (are not including).

6210110 6A MAX 12-24V RF

MAESTRO 2 RGBW

GENERAL INFORMATION

MAESTRO is a family of led strip controllers. MAESTRO 1 is a 3 channel controller with 24 preset keys & IR communication with the remote control. The remote control operates with high precision. Maximum distance 5m in open spaces. Is used it to control RGB LED strips by adjusting its brightness and color. The maximum load is 6A, 72W on 12V & 144W on 24V. Operating with batteries (are not including).

6210100 6A MAX 12-24V IR

MAESTRO 1 RGB

GENERAL INFORMATION

AMPLI RGB is an amplifier for led strips. Used for DC12V 4 pin 5050 RGB LED strips & DC24V 4 pin 5050 RGB LED strips. The amplifier is common anode. This is normally used for RGB LED lights, but also you can use it for monochromatic/simple color LED (connecting each color on inch channel). Multiple Amplifiers can be used in a daisy chain. The maximum load is 12A, 144W on 12V & 288W on 24V.

6210080 12A MAX 12-24V

AMPLI RGB

GENERAL INFORMATION

DIMMONO is a 1 channel controller with IR communication with the remote control. Mainly used to adjust the brightness of single color LED Strips or MR16 led spots. Compatible with DC 12-24V Single Color LED light Strip (RGB led strips not available). The maximum load is 8A, 96W on 12V & 192W on 24V. Operating with batteries (including).

6210070 8A MAX 12-24V RF

DIMMONO

GENERAL INFORMATION

TINO is a family of waterproof (IP65) wall recessed led light fittings equipped with SANAN LED sources.

The solutions subject of proposal vary in terms of form and type of installation, with one common denominator: the quality of our products.

Housing of aluminium painted with sandblasted finishing in sand black & white.

Semi transparent diffuser made by ABS.

Driver included in the package.

Transparent diffuser made by PC.

Constant current LEDs drivers included.

Housing of die-cast aluminum alloy, with high coefficient of thermal dispersion, electrostatically painted in sandblasted dark grey color, RAL 7024.

Power supply cable covered by rubber, 3x0,75 mm², with 0,3m length.

GENERAL INFORMATION

LION S is a led street light luminaire with non adjustable tilt angle. The luminaire is equipped with OS-RAM LED modules.

Can be installed on mounting arm with Internal diameter max. $\Phi 60\text{mm}$. One model of housing for four different wattages.

Housing and mounting element of die-cast aluminum, electrostatically painted.

Optical system with anti UV treatment polycarbonate lenses. Tempered glass diffuser with 4 mm thickness, with black decorative border.

Constant current waterproof LED driver.

Surge protection device (10 kV) included.

Wind trap area: 0.21 m^2 .

Connection cable $3 \times 1 \text{ mm}^2$ with a length of 0,7m.

Short circuit, overvoltage, overcurrent and overtemperature protection.

Option for different CCT depending on the project.

Option for different drivers depending on the project.

Option for different housing color depending on the project.

Gasket: EPDM Gasket (Hardness value A 20-25)

Nema socket optional. Adapter made according to the NEMA standard.

Remotely controls the luminaire and accepts remote commands using WiFi or ZigBee protocol.

Various wattages, body color, kelvins, available on demand.

Optical system with anti UV treatment polycarbonate lenses.
Constant current waterproof LED driver.
Surge protection device (10 kV) included.
Wind trap area: 0.21 m^2 .
Connection cable $3 \times 1\text{ mm}^2$ 0,7m.
Short circuit, overvoltage, overcurrent and overtemperature protection.
Option for different CCT depending on the project.
Option for different drivers depending on the project.
Option for different housing color depending on the project.
Gasket: EPDM Gasket (Hardness value A 20-25).
Nema socket optional. Adapter made according to the NEMA standard.
Remotely controls the luminaire and accepts remote commands using WiFi or ZigBee protocol.
Various wattages, body color, kelvins, available on demand.

GENERAL INFORMATION

VITA is a led park light luminaire for top installation.

The luminaire is equipped with OS-RAM LED modules.

Can be installed on the top of the pole with external dimensions 80x80mm or 100x100mm.

One model of housing for five different wattages.

Housing and mounting element of die-cast aluminum, electrostatically painted.

Optical system with anti UV treatment polycarbonate diffuser.

Constant current waterproof LED driver.

Surge protection device (10 kV) included.

Wind trap area: 0.11 m².

Connection cable 3x1 mm² 0,7m.

Short circuit, overvoltage, overcurrent and overtemperature protection.

Option for different CCT depending on the project.

Option for different drivers depending on the project.

Option for different housing color depending on the project.

Gasket: EPDM Gasket (Hardness value A 20-25).

Nema socket optional. Adapter made according to the NEMA standard.

Remotely controls the luminaire and accepts remote commands using WiFi or ZigBee protocol.

Various wattages, body color, kelvins, available on demand.

Option for second lighting source around the diffuser of the base in any desired color.

GENERAL INFORMATION

What are OCTA Lighting Poles?

Octa poles are metal octagonal conical hot-dip galvanized, suitable for installation of street lighting, park lighting or floodlights. They are made in single pieces with a maximum length of 15m.

HOT GALVANIZING

Hot-dip galvanizing is done with a thickness of 70microns zinc and provides an anti-rust guarantee of 24 years.

This coating does not require any maintenance over the years.

PAINT

Anti-rust acrylic powder paint. It is performed in furnaces and applied electrostatically to the pole.

Provides rust protection for several years and requires pole repair every 4-5 years, if is not galvanized but only painted.

HOT GALVANIZING + PAINT (ZP)

In addition to hot-dip galvanizing, the pole is painted with a matte or glossy acrylic paint. This gives extra years of protection. It also contributes in order to join projects that require a specific demands.

Special lengths and colors, available on demand.

There are 4 most common different types of arms which are used for street lighting with lengths: 800mm, 1000mm & 1200mm & 3 types for floodlights.
They can be made in any length and given any angle.
They can also be galvanized, painted or galvanized and painted together.
They have as standard a vertical piece of steel which is 20cm, $\Phi 72$ mm, in order to be installed outside of the top of the pole.

SOLAR LIGHTS

**FLOODLIGHTS, STREET LIGHTS, WALL
LIGHTS & GARDEN FIXTURES**

GENERAL INFORMATION

SAHARA 100, is a solar waterproof, IP65, projector equipped with SMD LEDs & photo-sensor.

Transparent diffuser.

Housing of ABS in black color. polycarbonate solar panel and glass.

New type ETFE Photovoltaic monocrystalline panel 5V - 10W.

Battery: Lithium 2xLiFePO4 3.2V 8000mAh

Charging time: 6-8h

Autonomy: 12-14h

Is equipped with remote control with the following functions:

ON - Brightness will be decreased from 100%, the light will be off after 12-14 hours.

OFF - Light off.

HIGH LIGHT - The button is effective when the light is on, the brightness will keep 165%, and light will be off after 3 hours.

SLIGHTLY LIGHT - The button is effective when the light is on, the brightness will keep 35%, and the light will be off after 12-14 hours.
2H - Keep 165% brightness, the light will be off after 2 hours.

4H - Brightness will be decreased from 100%, the light will be off after 4 hours.

6H - Brightness will be decreased from 100%, the light will be off after 6 hours.

AUTO - Brightness will be decreased from 100%, the light will be off after 12-14 hours.

GENERAL INFORMATION

SOLIGHT P, is a solar waterproof, IP44, projectors equipped with SMD LEDs, PIR & photosensor.
Made of: ABS
Panel: Polycrystalline 5.5V, 2.6W
Battery: Lithium 18650 3.7V 1.8Ah
Charging Time: 6-8 hours
Discharging Time: 6-8 hours with sensor use
Function: photosensor + PIR sensor.
Human sensor mode 1:
In the dark, the light will be on consistently.
Human sensor mode 2:
In the dark, it will be weak light and automatically on strong light for 15s once sensing people movement and back to weak light afterwards
Light Sensor Mode 3:
In the dark, the light will automatically on for 15s once sensing people movement and off afterwards.
Detection Distance of PIR Sensor: 3-5m.
Installation Height: 2-3m.

SOLIGHT V, is a solar waterproof, IP44, projector equipped with SMD LEDs, PIR & photosensor.
Made of: ABS
Panel: Polycrystalline 5.5V, 1W
Battery: Lithium 18650 3.7V 2.4Ah
Charging Time: 6-8 hours
Discharging Time: 6-8 hours with sensor use
Function: photosensor + PIR sensor.
Human sensor mode 1:
In the dark, the light will be on consistently.
Human sensor mode 2:
In the dark, it will be weak light and automatically on strong light for 15s once sensing people movement and back to weak light afterwards.
Light Sensor Mode 3:
In the dark, the light will automatically on for 15s once sensing people movement and off afterwards.
SOS Mode 4:
In the dark, SOS light will be on consistently.
Detection Distance of PIR Sensor: 3-5m.
Installation Height: 2-3m.

GENERAL INFORMATION

SOLUX W, is a solar waterproof, IP44, projector equipped with SMD LEDs, PIR & photosensor.

Transparent polycarbonate diffuser with a thickness of 4 mm.

New type ETFE Photovoltaic polycrystalline polycarbonate panel 5.5V - 1.65W.

Battery: 18650 3.7V 1850mAh.

Charging time: 8-10h

Autonomy: 8-12h

Function: photosensor + PIR sensor.

Human sensor mode 1: In the dark, the light will be on consistently.

Human sensor mode 2: In the dark, it will be weak light and automatically on strong light for 15s once sensing people movement and back to weak light afterwards.

Light Sensor Mode 3: In the dark, the light will automatically on for 15s once sensing people movement and off afterwards.

- Detection Distance of PIR Sensor: 3-5m.

GENERAL INFORMATION

VICTORIA, is a solar waterproof, IP65, led strip set, with remote control.

Housing of ABS in black color.

Polycarbonate solar panel.

New type ETFE Photovoltaic monocrystalline panel 5V - 1.6W.

Battery: Lithium LiFePO4 3.2V 1800mAh

Charging time: 4-6h.

Autonomy: 12-14h

Is equipped with remote control with the following functions:

ON - Light ON and enter to AUTO mode.

OFF - Light off.

HIGH LIGHT - Brightness will be gradually decreased from 100%, light off after 12-14.

SLIGHTLY LIGHT - Brightness will be gradually decreased from 40%, light off after 12-14 hours.

3H - Brightness will be gradually decreased from 100%, light off after 3.

6H - Brightness will be gradually decreased from 100%, light off after 6.

MODE - Single color: always on—«breathing»—* flash—>slow flash.

AUTO - Brightness will be gradually decreased from 100%, light off after 12-14

**PORTABLE &
EMERGENCY LIGHTS**
TORCHES, NIGHT LAMPS & EXIT

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 13 is a two way light sources, side light (145Lm & 2W) torch (300Lm & 5W), total 7W output power.

Characteristics:

Battery: Lead-Acid 4V 1600mAh

Charging time: 12 - 15h

Discharging time: 4h for the side light, 2h for the torch.

Non-slip Grip.

Class II.

Color: Red & black.

Dimensions: Ø91x287mm.

2 pin power cable with euro plug and 0.5m long for charging included in the package.

5000470 7W (5+2w) 445lm 6000K

LAMPAS 13

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 9 is a one way light source with 2 functions: High (150Lm), Low (55Lm), total 3W output power.

Characteristics:

Battery: Lead Acid 4V 900mAh

220-240V Charging.

DC Operating.

Charging time: 10 - 12h

Discharging time: 2.5 - 6h

Non-slip Grip.

Class II. Color: Yellow & black.

Dimensions: Ø78x230mm.

2 pin power cable with euro plug and 0.5m long for charging included in the package.

5000430 3W 150lm 6000K

LAMPAS 9

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 11 is a one way light source with 2 functions: High (125Lm), Low (40Lm), total 3W output power.

Characteristics:

Battery: Lead Acid 4V 400mAh

DC Charging.

DC Operating.

Charging time: 10 - 12h

Discharging time: 1 - 4h

Non-slip Grip.

Class II. Color: Green & black.

Dimensions: Ø65x190mm.

Built in euro plug for direct charging.

5000450 3W 125lm 6000K

LAMPAS 11

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 1 is a one way light source with 3 functions: High (500Lm) / Mid (200Lm) / Low (50Lm), total 25W output power.

Characteristics:

Battery: Li-ion 3.7V 2000mAh

DC Charging.

DC Operating.

Charging time: 4 - 6h

Discharging time: 1.5 - 20h

Class II.

Color: Yellow.

Hook on the handle.

Dimensions: Φ 110x190mm.

USB Charging cable 0.5m included.

5000360 25W 500lm 6000K

LAMPAS 1

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 2 is a two way light sources, side light (500Lm & 6W) torch (50Lm & 0.5W), total 6.5W output power.

Characteristics:

Battery: Lead-Acid 4V 900mAh

220-240V Charging. DC Operating.

Charging time: 12 - 15h

Discharging time: 2.5h (side light), 7h (torch).

Autonomy: 7h

Sliding hook on top.

Class II. Color: Yellow & white.

Dimensions: 148x58x42mm.

2 pin power cable with euro plug and 0.5m long for charging included in the package.

5000370 6.5W (6+0.5W) 500lm 6000K

LAMPAS 2

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 11 is a two way light sources, side light (140Lm & 19W) torch (140Lm & 3W), total 22W output power.

Characteristics:

Battery: Li-ion 3.7V 1800mAh

DC Charging.

DC Operating.

Charging time: 6 - 8h

Discharging time: 1.5h - 40h (side light),

3.5 - 80h (torch).

Class III.

Color: White & grey.

Dimensions: Φ 83x202mm.

USB Charging cable 0.5m included.

5000410 22W (19+3W) 280lm 6000K

LAMPAS 11

GENERAL INFORMATION

LAMPAS is a family of rechargeable portable led torches.

LAMPAS 8 is a two way light sources, folding internal side light (140Lm & 3W) torch (50Lm & 1.4W), total 4.4W output power.

Characteristics:

Battery: Li-ion 3.7V 1200mAh.

DC Charging.

DC Operating.

Charging time: 4 - 6h

Discharging time: 5h (side light), 2 - 10h (torch).

Class III.

Color: White & grey.

Dimensions: Ø67x180mm.

USB Charging cable 0.5m included in the package.

5000420 4.4W (3+1.4w) 190lm 6000K

LAMPAS 8

GENERAL INFORMATION

FLASH is a family of portable led flash lights.

FLASH 1 is a two way light sources, internal side light COB (150Lm & 2W) torch XPE with zoomable head (50Lm & 1W), total 3W output power.

Characteristics:

Battery: Li-ion 14500 400mAh

DC Charging.

DC Operating.

Charging time: 6h

Discharging time: 6h

Class III.

Color: Black

Dimensions: Ø25x92mm.

USB Charging cable 0.5m included in the package.

EMERGENCY LED LIGHTS

GENERAL INFORMATION

EXIT 10 is a rechargeable emergency fixture equipped with SMD LEDs.

2 in 1, can be used as pendant or surface mounted.

Battery: Lithium 14500 3.7V 500mAh.

AC Charging.

DC Operating.

Charging time: 12-15h,

Discharging time: 10h.

Class II.

Housing of ABS, diffuser of PS.

Exit & other stickers are included.

EU plug with 40cm cable included in the package.

5020140 2W 100lm 6500K

EXIT 10

GENERAL INFORMATION

EXIT C is a rechargeable emergency fixture equipped with SMD LEDs.

Can be used for surface mounted.

It is waterproof, IP65, which means can be used outdoor.

Wasy opening of the difusser with 2 pop-up buttons.

Battery: LiFePO4 3.2V 600mAh.

AC Charging.

DC Operating.

Charging time: 6-8h,

Discharging time: 3h.

Class II.

Housing of ABS, difusser of PC.

Exit & other stickers are included.

GROUP SOCKETS WITH CABLE & SWITCH

GENERAL INFORMATION

UNICO 3 is a unique group socket with switch, made by PP.
Is equipped with cable in different lengths, 1.5m & 3m. The cable type used is H05VV-F and offers maximum load of 16A - 3680W.
The insulation of the cable is PVC.
3 positions: 3x2P+PE SCHUKO.
Safety during use is guaranteed by the construction and selection of self-extinguishing materials.
All VITO group sockets are equipped with protection against direct contact.

The cable is connected from the back.
It has a protection class of IP44 which means it can be used for outdoor purposes too.
Safety during use is guaranteed by the construction and selection of self-extinguishing materials.
All VITO group sockets are equipped with protection against direct contact.

8006450 BLACK

SIMPLE M01

GENERAL INFORMATION

SIMPLE M3 is an angular male schuko plug made by rubber.
The cable is connected from the bottom.
Safety during use is guaranteed by the construction and selection of self-extinguishing materials.
All VITO group sockets are equipped with protection against direct contact.

8006470 BLACK

SIMPLE M02

GENERAL INFORMATION

SIMPLE FO1 is a female schuko plug made by rubber.
The cable is connected from the back.
It has a protection class of IP44 which means it can be used for outdoor purposes too.
Safety during use is guaranteed by the construction and selection of self-extinguishing materials.
All VITO group sockets are equipped with protection against direct contact.

8006460 BLACK

SIMPLE FO1

GENERAL INFORMATION

SIMPLE F1 is a female schuko plug made by PP.
The cable is connected from the back.
Safety during use is guaranteed by the construction and selection of self-extinguishing materials.
All VITO group sockets are equipped with protection against direct contact.

SIMPLE F1

GENERAL INFORMATION

UNI 1 is a universal adapter made by PP.
This universal socket power adapter allows you to connect devices from other countries to one socket outlet.
The adapter does not convert/change the voltage.
Current voltage: 250V
Type: EP-A112
High conductivity copper contacts
Adapter from suko male socket to universal female socket
Color: White.

8006540 WHITE

UNI 1

GENERAL INFORMATION

ISOLDER is a new innovative solution for connecting conductors simultaneously provides a soldered, insulated and waterproof connection in just a few seconds. No soldering kit required. Whether you're repairing a damaged electrical appliance cable, splicing wires in a car or in a professional industrial environment, this product will provide a strong, quality, weatherproof connection.

Specifications: 0,5mm²-1mm² x 20pcs.

Shrinkage ratio: 2:1.

Operating temperature: -55°C/+125°C.

Minimum shrink temperature: 80°C.

Starting temperature of solder melt: 115°C.

Temperature of fully solder melt: 150°C.

7200130 0.5-1mm² 20pcs RED

GENERAL INFORMATION

TIE P is a family of plastic, flame retardant, cable ties made of high quality nylon PA6. They have strong bearing capacity and are not easy to break.

Bright color, good toughness, not easy to aging and long service life.

Strong, durable great for organizing cables. They are available in 2 colors, white & black.

Black color cable ties are having a UV film for extra protection against the sun.

GENERAL INFORMATION

MS 06 is a surface mounted PIR sensor made of polycarbonate.

The base is rotatable horizontal and vertical

Is intended for internal installations as its protection class is IP20.

Detection Angle: 360°.

Maximum Detection Range: <6m (24°C).

Motion detection speed: 0,6~1,5m/s.

Height of Installation: 2,2-4m.

Ambient Light: 3~2000lux.

Time Delay: 10sec-120sec.

Available in white color.

GENERAL INFORMATION

SD ION is a single-station alarm with an early warning signal, made of plastic.

Is intended for internal installations as its protection class is IP21.

This alarm utilizes ionization sensing technology to activate in the event of a smoke or fire incident and its compact design lends it a discreet profile in your home or business.

Powered by a 9-Volt battery (not included), this smoke alarm will protect you, your family and home during a power outage. - When the battery begins to lose power, a low-battery alert will begin to chirp to notify you it is time to replace.

Available in white color.

GENERAL INFORMATION

VENTI G1 is the most commercial exhaust fan of VITO.
Front surface of the fan is Gril.
The Discreet slim profile with the length of the neck of the back side to be less than 60mm, makes it suitable almost for any project.
Diameter of the back pipe is $\Phi 100\text{mm}$.
It can be installed recessed in ceilings or walls.
Long life and silent motor, lasts 50.000 hours and the noise is $<35\text{dB}$ (3m).
Ability to absorb $100\text{m}^3/\text{h}$ of air .
Consumption of the fan is 12W.
Available in white mat color.
Electrical connection can be done inside or outside of the fan.

8005100 $\Phi 100\text{mm}$ 12W $100\text{m}^3/\text{h}$ WHITE

VENTI G1

GENERAL INFORMATION

VENTI G2 is the most commercial exhaust fan of VITO.
Front surface of the fan is Gril.
Discreet slim profile with the length of the neck of the back side to be less than 95mm.
Diameter of the back pipe is $\Phi 120\text{mm}$.
It can be installed recessed in ceilings or walls.
Long life and silent motor, lasts 50.000 hours and the noise is $<36\text{dB}$ (3m).
Ability to absorb $150\text{m}^3/\text{h}$ of air .
Consumption of the fan is 15W.
Available in white mat color.
Electrical connection can be done inside or outside of the fan.

8005120 $\Phi 120\text{mm}$ 15W $150\text{m}^3/\text{h}$ WHITE

VENTI G2

GENERAL INFORMATION

VENTI F1 is the most commercial exhaust fan of VITO.
Front surface of the fan is flat and is removable.
Discreet slim profile with the length of the neck of the back side to be less than 95mm.
Diameter of the back pipe is $\Phi 100\text{mm}$.
It can be installed recessed in ceilings or walls.
Long life and silent motor, lasts 50.000 hours and the noise is $<35\text{dB}$ (3m).
Ability to absorb $100\text{m}^3/\text{h}$ of air .
Consumption of the fan is 12W.
Available in silver and black mat colors.
Electrical connection can be done inside or outside of the fan.

8005170 $\Phi 100\text{mm}$ 12W $100\text{m}^3/\text{h}$ SILVER
8005111 $\Phi 100\text{mm}$ 12W $100\text{m}^3/\text{h}$ BLACK

VENTI F1

GENERAL INFORMATION

VITO electric doorbells are intended for home use, but they can also be used in other areas.
 BELLA 4 is a wired mechanical doorbell with transformer. 220V in - 12V out.
 Is made of plastic.
 Sound: 1 melody, mechanical Ding-Dong.
 Volume: 80db (non adjustable).
 Power Consumption: <2W.

5800100 1 MELODY 162x98x42 WHITE

BELLA 4

GENERAL INFORMATION

VITO electric doorbells are intended for home use, but they can also be used in other areas.
 BELLA 5 is a wired mechanical doorbell 220V
 Is made of plastic.
 Sound: 1 melody, mechanical Ding-Dong.
 Volume: 80db (non adjustable).
 Power Consumption: <2W.

5800110 1 MELODY 162x98x42 WHITE

BELLA 5

GENERAL INFORMATION

BELLA 3 is a kinetic digital wireless doorbell made of ABS. It is equipped with bright LED light indicator. Pairing method: automatic pairing – self-learning.

Sound: digital 4 chord, 20 melodies.

Volume: 70-80db (3 steps, low,middle,high).

A long wireless range of wireless doorbell guarantees clear and smooth communication between the push button and the doorbell itself. Working Range: maximum 100m (in open spaces).

Transmitter Voltage: is self powered by kinetic energy, free of batteries.

Receiver Voltage: Direct to the plug 110V/220V. Available in black mat color.

5800070 20 MELODIES 120x80x35 BLACK

BELLA 3

GENERAL INFORMATION

BELLA 2 is a digital wireless doorbell made of ABS. It is equipped with bright LED light indicator. Strong Anti-jamming system, unique code to avoid false trigger. Pairing method: automatic pairing – self-learning.

Sound: digital 4 chord, 20 melodies.

Volume: 70-80db (3 steps, low,middle,high).

A long wireless range of wireless doorbells guarantees clear and smooth communication between the push button and the doorbell itself. Working Range: maximum 100m (in open spaces). Transmitter Voltage: 12V V23GA battery (included). Receiver Voltage: 4.5V 3xAAA batteries (are not included).

Available in white with grey color.

5800060 20 MELODIES 100x60x27 WHITE

BELLA 2

GENERAL INFORMATION

BELLA 1 is a digital wireless doorbell made of ABS.

Pairing method: automatic pairing – self-learning.

Share frequency, with no interference from others.

With bright LED light indicator.

Sound: 36 melodies.

Volume: 75dB.

Transmitter Voltage: 12V V23GA battery (included).

Receiver Voltage: 3V 2xAAA batteries (are not included).

Working Range: 80m (in open spaces).

Available in white with blue color.

5800050 36 MELODIES 90x60x20 WHITE

BELLA 1

GENERAL INFORMATION

BELLA 6 is an intelligent alarm set with separate wireless infrared sensor.
Volume: 70-80db (3 steps, low,middle,high).
Sound: 2 melodies.
Transmitter Voltage: 4.5V DC 3xAAA .
(are not included).
Receiver Voltage: 3V DC 2xAAA (are not included).
Sensor transmitter: 2 options, 1. stand alone alarm sound, 2. use with the receiver.
Working frequency: RF 315MHz / 433.92MHz.
Detection angle: 100° adjustable.
Detection distance: 3-7m.
Receiver/Transmitter Range: 130-150m (in open spaces).
Available in white color.

5800080 2 MELODIES 100x55x25 WHITE

BELLA 6

GENERAL INFORMATION

BELLA 7 is an intelligent alarm set with built in infrared sensor.
Volume: 85db.
Working Voltage: 4.5V DC 3xAAA
(are not included).
Sensor transmitter: 2 options, 1. play a sound among 36 available melodies, 2. welcome voice.
Detection angle: 100° adjustable.
Detection distance: 3-7m.
Available in white color.

5800090 2 MELODIES 100x64x34 WHITE

BELLA 7

GENERAL INFORMATION

UNI is a family of lampholders E14 & E27 made of plastic with pressed ends.

DUI is family of lampholders E14 & E27 made of bakelite with screwed ends.

Max. temperature: 210°C. Housing material: PBT. Max. load: 4A. Voltage: 250V. Available in 2 colors, white and black.

GENERAL INFORMATION

STRING 10 is a garland system of lighting made of PVC.
It has a protection class of IP44 which means it can be used for outdoor purposes too.
Can transform gardens, verandas or terraces into cozy space for having fun & relax.
The String is interconnected and you can create lines of lighting with only one plug.
It consisted of 10+3m, 3x0.75mm², of cable and 10 base holders E27.
Distance between base holders is 1m.
Lighting sources are not included.
Maximum wattage of led bulbs 60W.

7300170 10xE27 10m

STRING 10

GENERAL INFORMATION

STRING-15 is a garland system of lighting made of PVC.
It has a protection class of IP44 which means it can be used for outdoor purposes too.
Can transform gardens, verandas or terraces into cozy space for having fun & relax.
The String is interconnected and you can create lines of lighting with only one plug.
It consisted of 15+3m, 3x0.75mm², of cable and 15 base holders E27.
Distance between base holders is 1m.
Lighting sources are not included.
Maximum wattage of led bulbs 60W.

7300180 15xE27 15m

STRING 15

GENERAL INFORMATION

CANYON 1212 is a cable trunk which is made of PVC UL94,VOM1 and with max.load capacity 1.7kg.
It is produced in white color (RAL 9010), with UV protection film and can be painted at any color.
Can resist temperatures up to 960°C.
Operating temperature: -25 / +65°C.Resistant to UV radiation. Impact Resistance: 0.5Joule.
Is packed in carton box and minimum order quantity is 1 box.
